EDUCATION

Master of Science in Social Data Analytics and Research

December 2025

University of Texas at Dallas, Outstanding Graduate Student Nominee

Bachelor of Science in Sociology University of Houston

December 2023

- Concentration in Health and Medicine; Psychology minor, Magna Cum Laude

PROFESSIONAL EXPERIENCE

Marketing Analyst | Black Tip Swim School

July 2024-Present

- Model seasonal demand and formulate operational strategies by analyzing enrollment and leveling trends, resulting in a 15% optimization of staff scheduling
- Engineer recurring KPI reports and interactive dashboards to translate digital performance data into actionable insights, driving a 10% increase in customer engagement
- Streamline data quality assurance for customer lifecycle metrics to identify drivers of retention, contributing to a 5% reduction in student churn
- Assess digital campaign performance using Google Analytics and social engagement metrics to optimize conversion funnels and content strategy
- Spearhead the production of high-performing short-form video content, leveraging engagement analytics to achieve a 20% growth in brand reach

RESULTS Fellow/Mentor | RESULTS and RESULTS Educational Fund

January 2025-Present

- Mentor incoming fellows on policy research and advocacy strategy, increasing the effectiveness of grassroots stakeholder engagement and regional campaign outreach
- Analyze complex policy proposals and synthesize research to support evidence-based strategies, improving the technical accuracy of legislative communication materials
- Facilitate peer learning and accountability by guiding two fellows through end-to-end campaign development, achieving 100% completion of all quarterly advocacy tasks and legislative targets

Student Policy Research Analyst | Institute for Urban Policy Research (IUPR)

September 2025-January 2026

- Executed complex statistical modeling in R to evaluate regional education outcomes, delivering data-driven inferences that informed local policy interpretations
- Engineered an interactive Shiny dashboard to visualize secondary education datasets across multiple counties, enabling stakeholders to perform independent geographic trend analysis
- Leveraged raster-based spatial mapping to conduct root cause assessments of school performance, identifying key geographic factors impacting student success metrics
- Synthesized large-scale secondary education data into visual narratives, increasing the accessibility of technical research for non-technical policymakers

Daycare Student Assistant | UH Children's Learning Center

October 2020-August 2023

- Engineered an Excel-based filing system to standardize student and employee records, improving data retrieval speed and organizational accuracy
- Executed high-volume data management via ProCare, reducing employee administrative workload by 50% while ensuring 100% record compliance

ACADEMIC PROJECTS AND RESEARCH EXPERIENCE

Research Fellow | Empower the Voice

September 2025-December 2025

- Researched evaluation best practices to define measurable indicators for parent and student experiences
- Architected a program-level logic model and theory of change to translate organizational objectives into quantifiable KPIs
- Engineered a comprehensive data collection framework, integrating survey, event, and participant data, to support impact analysis and performance tracking

Research Fellow | Self-Esteem Elevated

September 2024-December 2024

- Analyzed participant outcomes via qualitative and text analysis following vision casting event interviews
- Formulated a logic model to predict resource flow and key metrics, aligning program activities with desired social impacts
- Designed a data integration plan for participant and event-level data to assess overall program effectiveness

[Information Management- SQL Database Project](#)

Spring 2024

- Integrated disparate nutrition, wellness, and geographic datasets into a relational PostgreSQL database with optimized data structures
- Executed data munging and complex query development to support a dynamic UI, enabling real-time data retrieval and analysis

Research Assistant | Social Processes Lab at UH

February 2023-December 2023

- Validated research data via Google Sheets and Qualtrics, ensuring rigorous documentation and organizational standards
- Collaborated with the M.D. Anderson Research Center to drive study participation through strategic outreach and informational campaigns
- Investigated academic literature to provide foundational reviews for upcoming research initiatives

SKILLS

Technical Skills: R, Python, SQL, Shiny, Google Analytics, Dashboard Development, Data Visualization, KPI Reporting, Excel, Tableau

Research and Evaluation: Logic Models, Theory of Change, Outcomes Evaluation, Survey Design, Text Analysis, Market Research, Customer Lifecycle Analysis, Social Media Analytics, Predictive Analytics, Forecasting, Modeling & Simulation, Descriptive and Inferential Statistics, GIS/Spatial Analytics, Geospatial Mapping

Professional Certifications: CPR/First Aid, CITI Human Research, Pathway to Professionalism, SAS Model Studio
