Marketing analyst with a graduate degree from the University of Texas at Dallas and expertise in statistical analysis and data analytics. Experienced in using analytical tools to analyze performance metrics, interpret datasets, and generate insights that support data-driven decision making.

EDUCATION

Master of Science in Social Data Analytics and Research

December 2025

University of Texas at Dallas

- Outstanding Graduate Student Nominee

Bachelor of Science in Sociology University of Houston

December 2023

- Concentration in Health and Medicine; Psychology minor
- Magna Cum Laude

PROFESSIONAL EXPERIENCE

Marketing Analyst/Lead Swim Instructor at *Black Tip Swim School*

July 2024- Present

- Analyze attendance, enrollment, retention, and leveling trends to forecast demand and inform data-driven marketing and operational strategy
- Develop recurring KPI reports translating program and digital performance data into actionable insights to improve conversions and customer retention
- Evaluate customer lifecycle data to identify drivers of retention, skill progression, and long-term engagement
- Assess digital campaign performance using Google Analytics and social engagement metrics to optimize conversion funnels and content strategy
- Produce and edit high-performing short-form video content, leveraging engagement analytics to refine creative direction and increase brand growth

RESULTS Fellow/Mentor at *RESULTS and RESULTS Educational Fund*

January 2025- Present

- Conduct legislative advocacy through meetings with congressional offices, policy memos, op-eds, and media outreach to influence federal budget priorities
- Mentor incoming fellows by providing guidance on policy research, advocacy strategy, and stakeholder engagement
- Analyze policy proposals and synthesize research to support evidence-based advocacy strategies
- Facilitate peer learning and accountability by supporting fellows in developing campaign plans, legislative meeting prep, and communication materials

Student Policy Research Analyst at *Institute for Urban Policy Research (IUPR)*

September 2025 – January 2026

- Conducted statistical analysis in R to support policy research on regional education outcomes across the Dallas–Fort Worth area
- Developed an interactive Shiny dashboard to visualize and explore secondary education data across multiple counties
- Generated raster-based spatial maps of school performance scores for 4 DFW counties to support geographic trend analysis and policy interpretation
- Collaborated with research staff to translate analytical findings into accessible data visualizations and reports for policy and community stakeholders

Young Advocate at *Young Invincibles*

September 2023-December 2023

- Evaluated the impact of healthcare and higher education policies on young adults (18–34) and facilitated data-informed educational campaigns to increase civic engagement

Game Master at *Locktopia Escape Rooms*

August 2022- January 2024

- Led and facilitated escape room experiences for groups up to 10, ensuring clear communication and engaging guest experiences.

Daycare Student Assistant at *UH Children's Learning Center*

October 2020- August 2023

- Developed and maintained an Excel-based filing system and managed student/employee records via ProCare, ensuring accurate and organized data management

ACADEMIC PROJECTS AND RESEARCH EXPERIENCE

CONNECT Fellow with Empower the Voice

September 2025 – December 2025

- Conducted research on best practices in outcomes evaluation to define measurable indicators of parent and student experience

- Developed a program-level logic model and theory of change to translate organizational objectives into quantifiable KPIs
- Designed a comprehensive data collection framework integrating survey, event-level, and participant-level data to support impact analysis and performance tracking

CONNECT Fellow with Self-Esteem Elevated

September 2024-December 2024

- Interviewed participants of vision castings events and used qualitative analysis and text analysis to evaluate self-esteem outcomes
- Developed a logic model to predict resource flow, key metrics, and desired impact
- Designed a data plan integrating participant and event-level data to assess program effectiveness

Information Management- SQL Database Project

Spring 2024

- Built a relational database using PostgreSQL and SQLite integrating nutrition, hiking, and wellness data.
- Developed an interactive Shiny web application with dynamic UI components connected to PostgreSQL via RPostgres.

Research Assistant at Social Processes Lab at UH

February 2023-December 2023

- Developed and collected research under different graduate student's studies through SONA systems to document participant data and their compensation credits
- Evaluated participant data via Google sheets and Qualtrics through documentation and proper organization
- Coordinated with M.D. Anderson research center to promote participation in studies through tabling and passing out informational flyers
- Conducted literature reviews for upcoming research

SKILLS

Technical Skills: R, Python, SQL, Shiny, Google Analytics, Dashboard Development, Data Visualization, KPI Reporting, Excel

Research and Evaluation: Logic Models, Theory of Change, Outcomes Evaluation, Survey Design, Text Analysis, Policy Analysis, Market Research, Customer Lifecycle Analysis, Social Media Analytics

Professional Certifications: CPR/First Aid, CITI Human Research, Pathway to Professionalism, SAS Model Studio
